When you step back and look at the entire offering -not just the financial side of it - there are a lot of factors in Finland's favor that most countries just don't have. Finland has skilled crews, very safe working conditions and the country overall is very safe."

-Aram Tertzakian, co-founder of XYZ Films and film producer, LOS ANGELES, USA

FILM TAMPERE

Film Tampere is a film commission at your service.
We provide:

- location scouting up to 3 days
- information of studios, locations and production facilities
- contact details of local production companies
- consulting on cash rebate and funding possibilities.

TAMPERE - FINLAND

Welcome to Tampere!

Are you looking for an inspiring atmosphere with a diversity of locations for shooting your next production? Tampere is one of Finland's fastest-growing cities and a perfect choice for a filming location.

Tampere is a city of happy people and a cozy atmosphere – at the same time modern and traditional, easy to reach, work and create. The city is located amid beautiful scenery between two lakes. Tampere has a lot of original and inspiring locations to use in filming, ranging widely from industrial funk to sleek modern architecture. Tampere was also elected as the Sauna Capital of the World. Welcome to feel the unique Tampere spirit!

TAMPERE - FINLAND

The Nordic hub of film and audiovisual productions

Film Tampere offers world-class AV production cost-efficiently with top professionals at your service. We work with the latest technology and provide modern studio facilities for productions of all sizes.

The local airport makes Tampere easily accessible, and the city has accommodation options for every budget.

There are also English speaking film professionals in our database, equipment rentals and studios, production companies and other production service providers.

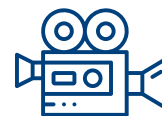

Find more information about filming in Tampere in our online Production Guide:

Filming and location permits

When working with small filming groups in public places no shooting permits are needed, as long as residents or businesses aren't disturbed. For private properties as well as for shooting on any privately owned land a permit is needed, but generally easy to get and at a reasonably low cost.

For using heavy equipment or motorized vehicles a permission may be needed. Film Tampere can help with the contact details and the permits.

Working and filming in Finland

Finland is a member of the European Union (EU) and Schengen Area. For visa requirements in the Schengen Area and travel documents accepted by Finland, visit the Ministry of Foreign Affairs of Finland website um.fi.

If you intend to work in Finland, you usually need a residence permit. However, you do not need a residence permit if you are a film worker and your employer does not have an office in Finland.

Citizens of the European Union and citizens of Iceland, Liechtenstein, Norway and Switzerland can freely work in Finland for a maximum of three months, after which they must register their right to reside in Finland.

Ecological sustainability

In Film Tampere, our activities are guided by values of sustainable development and social responsibility.

The city of Tampere aims to be carbon neutral by 2030 by following the Carbon Neutral Tampere 2030 program, reducing greenhouse gas emissions by 80 % from 1990 levels and compensating the remaining 20 %. We are also a member of Nordic Film Commissions and committed to NFC's Sustainability Pledge which focuses on making productions in the Nordic countries in a more sustainable way.

FEW TIPS FOR AN ECOLOGICALLY SUSTAINABLE PRODUCTION:

- Use Ekosetti – A guidebook to sustainable production in Finland. It's a thorough instruction manual of how to take environmental and ecological issues in consideration in every step of the filmmaking process. Download Ekosetti from ekosetti.fi
- Consider using sustainable production certification tools such as Albert, Green Producers Tool, or other to be aware of the emissions of your production.
- Have a look at Nordic Film Commission's Sustainability Pledge from nordicfilmcommissions.com and do your best to follow the agenda.
- Assign or hire a specially trained Sustainability Coordinator or Eco-Manager to your production.

Social sustainability

Social sustainability in filmmaking is about creating a safe, positive, well-organized, and well-led workplace for everyone involved in the process. It focuses on improving the well-being of the crew, promoting equality and inclusivity, and respecting everyone in the crew throughout the production.

We require supported productions to have zero tolerance for sexual harassment and inappropriate behavior and encourage productions to use the official guide designed to prevent such behavior. The guide for preventing inappropriate treatment, harassment and sexual harassment in the Film and TV industry, created by Audiovisual Producers Finland, can be downloaded from our website at www.filmtampere.com/about-us/environment-and-responsibility

For any neglect of these guidelines or any other misconducts we encourage productions and their crew to use the notice form operated by APFI to report any inappropriate operations. You can find the form from apfi.fi/en/notice-form
